[REDACTED]

Dear Customer,

NSTAR has received all documentation with regards to your recently installed Solar Photovoltaic system located at [REDACTED]. Approval is now granted for your system to be interconnected to the NSTAR electrical grid.

Before operating your distributed generation system, however, please verify that a net meter has been installed at your location. For most applications a net meter features a red sticker that says "NET." If you are unsure please call so that NSTAR can verify for you before going online. NSTAR will not be liable for any billing errors that occur if you operate your system before the net meter is installed.

NSTAR wishes you the best with your new system and hopes that you get many years of use.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Paul D. Kelley".
