

PJM GATS Registered Solar Projects

State	Registered (MW)	Month Over Month Increase (MW) ¹	Current Year Requirement (MW) ³	Next Year Requirement (MW) ³	# of Projects ≥ 1 MW	Capacity of Projects ≥ 1 MW
New Jersey						
	Current		EY2012	EY2013		
NJ Systems Certified in NJ & Other States	5.7				1	5.2
NJ Systems Only Certified in NJ	427.5				61	130.6
NJ² Certified Total	433.2	20.4	368.0	496.7	62	135.8
Maryland						
	Current		CY2011	CY2012		
MD In-State Systems Certified in MD & Other States	11.7				3	5.3
MD In-State Systems Only Certified in MD	21.8				1	1.0
MD In-State Total	33.5				4	6.3
MD Out-of-State Systems Certified in MD & Other States	20.3				1	10.0
MD Out-of-State Systems Only Certified in MD	1.1				-	-
MD Out-of-State Total	21.3				1	10.0
MD Certified Total	54.8	2.9	26.9	54.5	5	16.3
Pennsylvania						
	Current		EY2012	EY2013		
PA In-State Systems Certified in PA & Other States	61.3				8	15.5
PA In-State Systems Only Certified in PA	52.6				5	10.8
PA In-State Total	113.9				13	26.2
PA Out-of-State Systems Certified in PA & Other States	36.2				5	20.5
PA Out-of-State Systems Only Certified in PA	1.9				-	-
PA Out-of-State Total	38.1				5	20.5
PA² Certified Total	152.0	5.6	40.4	64.3	18	46.8
Washington D.C.						
	Current		CY2011	CY2012		
DC Sited Systems Certified in DC & Other States	0.8				-	-
DC Sited Systems Only Certified in DC	1.9				-	-
DC Sited Total	2.7				-	-
Non-DC Sited Systems Certified in DC & Other States	15.6				-	-
Non-DC Sited Systems Only Certified in DC	3.2				1	1.2
Non-DC Sited Total	18.8				1	1.2
DC Certified Total	21.5	0.1	41.9	53.2	1	1.2
Delaware						
	Current		EY2011-12	EY2012-13		
DE Systems Certified in DE & Other States	6.3				-	-
DE Systems Only Certified in DE	16.5				2	12.4
DE² Certified Total	22.8	0.2	19.5	39.5	2	12.4
Ohio						
	Current		CY2011	CY2012		
OH In-State Systems Certified in OH & Other States	1.2				-	-
OH In-State Systems Only Certified in OH	26.4				4	17.1
OH In-State Total	27.7				4	17.1
OH Out-of-State Systems Certified in OH & Other States	60.5				8	15.5
OH Out-of-State Systems Only Certified in OH	0.8				-	-
OH Out-of-State Total	61.3				8	15.5
OH Certified Total	89.0	7.0	37.7	76.5	12	32.6
Total Certified Systems - All PJM Markets⁵	654.3	28.4			87	209.1

MA DOER Qualified Solar Projects

State	Registered (MW)	Month Over Month Increase (MW) ¹	Current Year Requirement (MW) ³	Next Year Requirement (MW) ³	# of Projects ≥ 1 MW	Capacity of Projects ≥ 1 MW
Massachusetts						
	Current		CY2011	CY2012		
MA - Operational	30.9				3	4.6
MA - Not Operational	13.3				8	9.4
MA Qualified Solar Total	44.2	3.2	55.7	65.0	11	14.0

Source: MA DOER Report - "RPS Solar Carve-Out Qualified Renewable Generation Units" as of 11/21/11

Notes:

1. Represents the increase in certified capacity from the prior month's SRECTrade SREC Markets Report. MA represents the increase from the last DOER report on 10/24/11.
2. CY=Calendar Year, EY=Energy Year. DE, NJ, and PA energy years run from June 1 - May 31
3. Estimated Required Capacity - Current and Next Reporting year reflects the total capacity that must be running on average throughout the year to meet the solar requirement in that year. Figures based on RPS requirements, EIA data, and SRECTrade estimates. MWhs are converted to megawatt capacity requirement at a rate of 1,200 MWhs in PJM and 1,130 MWhs in MA per year per MW. MA estimates take into consideration the impact of the TransCanada settlement.
4. Up to 50% of the OH requirement can come from bordering states. The total MWhs reference is for the entire RPS requirement.
5. Total Certified Systems - All PJM Markets: These figures do not equal the sum of total certified capacity and quantity of projects greater than 1 MW due to systems certified in multiple states.
